**NUTRA PHARMA ANNOUNCES FORMER GLAXOSMITHKLINE GLOBAL
CLINICAL DEVELOPMENT DIRECTOR JOINS RECEPTOPHARM SCIENTIFIC
ADVISORY BOARD**

Boca Raton, FL. – August 29, 2006 - Nutra Pharma Corp., (OTCBB: NPHC) a biotechnology company that is developing drugs for HIV and Multiple Sclerosis has announced that Dorothy Bray, Ph.D., representing ImmunoClin Ltd, has joined the ReceptoPharm Scientific Advisory Board. Dr. Bray served as the Director of HIV Clinical Development at GlaxoSmithKline (GSK) with global responsibility for their clinical trials program. GSK is currently the largest provider of HIV antiretroviral drugs with an estimated 40% global market share.

“I am pleased to join the ReceptoPharm Scientific Advisory Board,” explained Dr. Bray. “I look forward to contributing directly to ReceptoPharm’s current and future clinical trial programs and developing focused strategies to bring their drugs to market,” she added.

Dr. Bray has significant expertise in clinical development and market positioning for novel drugs. Her key skills include broad scientific and regulatory knowledge, strategic planning, and commercial awareness.

“Dr. Bray and her associates at ImmunoClin Ltd will add tremendous value to ReceptoPharm and Nutra Pharma,” commented Dr. Paul Reid, CEO of ReceptoPharm. “We welcome her to the Scientific Advisory Board and we look forward to a close working relationship with her.” he added.

ReceptoPharm is currently studying RPI-MN as a treatment for HIV and RPI-78M as a treatment for Multiple Sclerosis (MS), and Adrenomyeloneuropathy (AMN). They recently announced their approval by the British Medicines and Healthcare Regulatory Agency to begin Phase II human trials for the treatment of AMN.

About Nutra Pharma Corp.

Nutra Pharma Corp. is a biopharmaceutical company specializing in the acquisition, licensing and commercialization of pharmaceutical products and technologies for the management of neurological disorders, cancer, autoimmune and infectious diseases. Nutra Pharma Corp. through its subsidiaries carries out basic drug discovery research and clinical development and also seeks strategic licensing partnerships to reduce the risks associated with the drug development process. The Company's holding, ReceptoPharm, Inc, is developing technologies for the production of drugs for HIV and Multiple Sclerosis ("MS"). The Company's subsidiary, Designer Diagnostics is engaged in the research and development of diagnostic test kits designed to be used for the rapid identification of infectious diseases such as Tuberculosis (TB) and Mycobacterium avium-intracellulare (MAI). Nutra Pharma continues to identify and acquire intellectual property and companies in the biotechnology arena.
