

# Nutra Pharma Announces Granted Continuing Education for Pharmacists

*Nutra Pharma announces providing an educational grant for the Pharmacist Continuing Education course "Over-the-Counter Use of Neuroactive Peptides for the Treatment of Chronic Pain"*

January 20, 2010 -- Coral Springs, Florida -- Nutra Pharma Corporation (OTCBB: NPHC), a biotechnology company that is developing treatments for Adrenomyeloneuropathy (AMN), Human Immunodeficiency Virus (HIV), Multiple Sclerosis (MS) and Pain, announced today that it has provided an educational grant for the Pharmacist Continuing Education course "Over-the-Counter Use of Neuroactive Peptides for the Treatment of Chronic Pain". This course was sponsored by Postgraduate Healthcare Education, LLC (PHE) and is already available on the Power-Pak website ([www.powerpak.com](http://www.powerpak.com)).

"We are pleased to provide this educational grant so that Pharmacists can be better educated on the options available to patients with chronic pain," explained Rik J Deitsch, Chairman and CEO of [Nutra Pharma Corporation](#). "We believe that these sort of educational activities are the key to providing a better foundation for the treatment of chronic pain and inflammation," he concluded.

The goal of the course is to provide an overview of neuroactive peptides and their medical applications, with specific emphasis on patients with pain syndromes. After completing the course, participants should be able to:

- Review the historical use of snake venom for the treatment of medical conditions, particularly those requiring pain relief;
- Discuss the scientific basis for the use of neuroactive peptides from snake venom for treating physical conditions, such as chronic and acute pain;
- Describe the available pain medications that operate according to these mechanisms and review their safety and efficacy data;
- Develop patient education strategies about the use of snake venom-based medications for pain relief, particularly over-the-counter preparations.

The CE lesson is available at the [Power-Pak](#) website as well as through [US Pharmacist](#). The activity provides 2 credit hours to Pharmacists that complete the course.
